

Dignified Cremation

Prospect Hill Cemetery

is developing a spacious cremation garden for the permanent interment of urns, and peaceful meditation.

Features include:

- Columbaria constructed of New England-quarried granite to complement the cemetery's existing stone memorials
- Tiered walls contain 500 openings for the placement of cremated remains
- Niche plates provide individual personalization in the everlasting beauty and warmth of cast bronze
- Beautifully landscaped with plants indigenous to the island
- Bluestone paved walkways

**Construction to begin in autumn 2009
with placements starting in spring 2010.**

To learn more about the new cremation garden in historic Prospect Hill Cemetery, and for peace of mind that your final wishes will be carried out, call Jeff Morash at 508-228-7371.
